

Alissa Troiano

Junior Full Stack Developer

alissatroiano@alissatroiano.com | 914-562-0119 | <https://github.com/alissatroiano> | <https://linkedin.com/in/alissatroiano/>

Executive Summary

A results-driven full-stack developer keen on joining a rapidly growing team to learn new technologies and contribute to the full software development life-cycle, from planning to launch. To see my projects and repositories, please review my GitHub (<https://github.com/alissatroiano>)

Technical Skills

Languages: Python, SQL, JavaScript, HTML, CSS

Database: PostgreSQL, MongoDB, MySQL, SQLite3

Version Control: Git

Frameworks: Django, Flask, React, MVC, NodeJS, Bootstrap, jQuery

Networking: HTTP, REST API, WAN, LAN

Cloud Deployment: AWS, Heroku

Education

01/2019 - 08/2021 | Diploma in Full Stack Software Development | Code Institute - Dublin, Ireland

01/2009 - 05/2012 | Bachelor of Science, Advertising & Marketing Comm | Fashion Institute of Technology - NY, NY | 3.8 GPA

Honors & Awards

02/28/2022 | 1st Place Winner | Code Institute February 2022 Hackathon | [Smitten](#) | Word game (JavaScript, HTML, CSS)

11/28/2021 | Merit Award for Code Institute Milestone 2 Project | [Game of Facts](#) | Trivia game (JavaScript, jQuery, HTML, CSS)

11/28/2021 | Distinction Award for Code Institute Milestone 1 Project | [Infinity](#) | Frontend website (HTML, CSS, Bootstrap)

Experience

07/2019 – Present | **Nanny (Pelham, NY)** | Care for and teach basic computing principles to 9-year-old

- Entrusted with after-school pickup, homework help, and misc. tasks each day
- Use technical knowledge to teach basic computing principles and logistics to apprentice

01/2019 - 08/2021 | **Student at Code Institute (Dublin, Ireland)** | Acquired software development knowledge and skillset

- Learned agile software development principles and best practices
- Harnessed new tools & technologies to create a portfolio of web applications

06/2018 - 07/2019 | **Freelance Graphic Designer (Virtual)** | Used graphic design skills to sell freelance services

- Designed wedding seating charts, welcome signs, invitations, and other custom graphics for clients
- Used semantic web knowledge to increase views and maximize online presence

Activities

10/2021 - Present | Hack Team Leader at Code Institute Hackathons | Use agile tools to lead teams in five-day coding challenges.

- Oversee software development team in planning and executing projects that meet monthly scope requirements
- Use Git to contribute code and coach team members in version control

06/2021 – Present | Tester at GitHub Copilot Technical Preview | Test prediction patterns of AI during its' beta phase

- Document AI prediction patterns and behavior during local development
- Report bugs and feedback to GitHub's technical preview community
